

SYSTEM REQUIREMENTS

FOR COUNTRY FINANCIAL CU MOBILE BANKING APP

Supported Devices

The Mobile Banking application works with a variety of supported smartphones and other devices by utilizing your phones web browser or operating system. The list of supported devices is as follows:

The App Store (I.E. Apple)

- Operating System iOS v4.2 or higher

Google Play (I.E. Android)

- Smartphones with the Android Operating System v1.6 or higher

All other mobile devices that have data connectivity and include a WAP-base web browser.

Sufficient free memory space, as per each individual application size (see the application markets for the exact application size), must be available on the installing device.
